

TESTING

SURVEILLANCE

CERTIFICATION

Fire protection closures, windows, doors, gates and facades, and their fittings

An innovative cooperation agreement between the DMT - Testing Laboratory for Fire Protection, PfB Rosenheim and TÜV Nord CERT combines the know-how of well-known experts.

The DMT Testing Institute for Fire Protection with its branch in Lathen/Emsland is a byword for testing and customer service in the field of testing doors. For our customers we can bundle the whole spectrum of experienced test institutes and certifiers.

TÜV NORD CERT is a notified and reliable partner for testing and certification services. The experienced experts and auditors have profound knowledge and extensive experience.

PfB PRÜFZENTRUM FÜR BAUELEMENTE near Rosenheim is accredited and notified as an independent test centre for a large number of tests. In addition, the necessary certification can be carried out by the accredited and notified certification body PfBcert. With the many years of experience of the qualified staff, customer requirements for special tests can also be met.

Process/Basics for testing and certification

- Selection of specimens for testing
- Recommendation to notified and accredited testing body
- Classification report
- Extended application report (EXAP-Report)
- Technical documentation
- Verification of the essential components
- Surveillance and certification contract with the notified product certification body (TÜV NORD CERT respectively PfBcert)
- Initial and periodic inspection at the manufacturing plant
